**Subject:** information for PFAS call with NC today

Hi everyone: I have cut down the number of folks participating and it is still A LOT.  
I think it is safe to say that we want to help, but we don't want to overwhelm the meeting ☺.  
Just pointing out the obvious that it's NC's meeting and we are not the only invitees.

I would offer that we won't offer to take on anything today – without coming back to management – since this is a cross-Agency and resource issue. If asked to do anything, we can get back with them.

FYI - I have talked with Amy B. and it looks like these PFAS probably do not fall within the realm of the ongoing GenX OPPT enforcement action with Chemours – which was a question that I had.

Thanks everyone!  
Lynn

**Subject:** Call with NC DPH re: PFECAs

**When:** Wednesday, August 30, 2017 3:00 PM-4:00 PM (UTC-05:00) Eastern Time (US & Canada).

**Where:** STATEOP\_MEETME [Ex. 6 Personal Privacy (PP)]

Call in Number [Ex. 6 Personal Privacy (PP)]

Topic: discuss assessing toxicology and risk for the PFECAs. Specifically, what toxicology data is available on these compounds, and can any read across from PFOS/PFOA or GenX health levels be made to the non-target analytes that EPA discussed (attached)?
